

PLATO Society of Los Angeles

The PLATO Society of Los Angeles is seeking a motivated student programmer to make changes and develop enhancements for a Ruby on Rails web application used by the Plato Society of Los Angeles.

This posting is for a web programming position of 5 to 15 hours per week at \$20 per hour. We offer a flexible work environment where you can work from anywhere at any time so long as you deliver solutions as agreed upon with the PLATO Internet Committee Chair.

Ideally, the candidate should have experience with Ruby on Rails and jQuery. At minimum, the candidate should have experience with another web programming language and the willingness to learn Ruby on Rails and jQuery on their own time in parallel to this engagement.

Please send resume/inquiries to alicelewis89@verizon.net
